

The route descriptions below are our tried and tested routes – do consider printing out the appropriate one when coming to us. Once you are approaching the city from the RIGHT side – according to our descriptions below, GPS can take over effectively, but it would often take you on a route that we for some or other reason find less advisable. Just type in Agterplaas B&B – a pin will appear on the device.

If at any stage you are unsure or lost, please phone 011-726-6969 for assistance. Alternatively, the owner of Agterplaas B&B, Jannie du Toit, will always try to assist when available, which he mostly will be: 082-410-4046

In our office we have route descriptions from the establishment to an array of destinations that may be helpful. Always feel free to approach our office staff for a print-out.

Below please find, in alphabetical order, a number of the directions from which you might be approaching us.
